For the past week the mountains in this district have been robed in white—about ten inches of snow, having fallen since a week ago last night. The temperature was as low as five degrees below zero, but no one would believe it so cold until they saw the thermometer. This snowfall will prove a great blessing to this section next summer.

The Golden Cactus Tunnel company, who have been doing some splendid work on their tunnel in Cada canyon for several months past, decided to give their employees a little vacation last week, and accordingly suspended operations for a week. All hands reported for service last Wednesday morning, feeling much refreshed by their brief idleness.

W. E. Rogers and family have moved to the winter from their ranch on the Colorado, and have taken up their residence in North Bland. Mr. Rogers is the possessor of a fine stock ranch about thirty miles northwest of here which is well supplied with never-failing springs and an abundance of splendid grass. He says his stock is in fine condition for this season of the year.

J. H. Pegue was here calling on the merchants and auditing the accounts in the interests of W. L. Trimble & Co. last Saturday and Sunday. Present here he went to Albuquerque where it is understood he will be employed as bookkeeper in the office of the company for a few weeks. During his absence Mr. D. Kemp will be in charge of the Thornton office, while C. A. Schurich will take care of business for the stage and express line in Bland.

The society folk of Albermarle and Bland turned out in large numbers last Tuesday evening and the first of the twentieth century was ushered in in a very commendable and auspicious manner, the occasion being the masquerade ball given by the Independent Order of Odd Fellows. An orchestra consisting of all talented musicians from Santa Fe, who were three and dispensed most excellent music for the crowd who tripped a merry step for several hours over the polished floor of Woods Hall. J. A. Rice, P. J. Barber and W. H. Knight composed the floor committee and it may be said the gentlemen performed their duties faithfully.

Fighting Fire Under Difficulties-- Injured in Foggy Weather.

WIFE DESERTER BACK IN INDIANA.

From the Record:
Mr. and Mrs. Hardness returned from Albuquerque, where they have been visiting Mrs. Myra Frost and daughter for the past few days.

Ignacio Mora, while walking on the railroad track in the vicinity of the railroad station, ran against a rail, breaking his nose considerably and breaking his lower jaw bone. The weather was very foggy at the time. Mora being unable to see the rails that were laid.

An alarm of fire was turned in last night about 8 o'clock, there being a fire on fire belonging to the McNair residence on National street. The fire department went immediately, connecting the hose to the plug on Fifth street between National street and Main avenue, but when the water came there was little to save, as the building had about burned down. The buildings around that caught were saved. The force of water was good and the flames were extinguished soon after the water was put on, outside of the building that had a little fire inside.

The house was occupied by Brakeman Swallow and family. How the building came to catch fire is unknown.

From the Optic:

A regulation has arrived for W. F. Schmitt, who is charged with having deserted his wife back in Indiana. However, there are two sides to this story and one is said to be about as harrowing as the other.

Members of those societies are requested to attend the funeral.

Mr. Green, of the Palace hotel, has been suffering from an attack of influenza the past week, but has managed to keep on his feet and attend to business as usual.
